## ... Предговор

Републички завод за статистику Републике Српске, на основу вишегодишњег Статистичког програма Републике Српске и годишњег Плана рада, спроводи истраживања из области статистике културе, путем којих се прикупљају, обрађују и публикују подаци о радио и телевизијским станицама, кинима, позориштима, библиотекама, музејима, галеријама и изложбама, архивима и издавачкој дјелатности. Ради потпуног обухвата статистике културе, као и потребе за усаглашавањем са међународним стандардима, неопходно је радити на њеном даљем развоју и унапређењу.

Даљи развој статистике културе подразумијева активности на побољшању и усклађивању методолошких објашњења заснованих на препорукама и дефиницијама UNESCO-вог оквира за статистику из области културе и захтјевима Статистичког уреда ЕУ (European Statistical Office – EUROSTAT), чиме је осигурана међународна упоредивост података у домену статистике културе. Те активности се односе на побољшање обухвата пословних субјеката чија је главна и/или споредна дјелатност из области културе, прикупљање података о партиципацији у култури, анализирање статистика о запошљавању у култури, проучавање потражње у смислу индивидуалног учешћа у различитим пољима културе и прикупљање финансијских показатеља у култури из секундарних извора. Поред тога потребно је произвести и статистичке податке чији је циљ описати и пружити релевантне информације о институцијама културе, које би обухватиле број институција, број запослених, податке о примањима и издацима, податке о посјетиоцима, итд.

Потреба за спровођењем истраживања под називом “Истраживање пословних субјеката у области културе” је препозната у документу „Анализа недостатака статистичких извора података о сектору културе у Босни и Херцеговини“, а односи се на имплементацију Акционог плана за спроведбу Стратегије културне политике у Босни и Херцеговини које је Савјет Министара Босне и Херцеговине усвојио у септембру 2011. године.

Упитник за спровођење овог истраживања израдила је Радна група коју су сачињавали представници Агенције за статистику Босне и Херцеговине, Федералног завода за статистику Федерације Босне и Херцеговине, Републичког завода за статистику Републике Српске, УН агенција, Министарства цивилних послова Босне и Херцеговине, Федералног министарства културе и спорта и Министарства просвјете и културе Републике Српске, у складу са препознатим европским праксама, односно препорукама Еуростата.

Републички завод за статистику спровео је ово истраживање за Републику Српску у оквиру MDG-F програма „Култура за развој: Унапређење интеркултуралног разумјевања у Босни и Херцеговини“ којег заједнички спровode UNDP, UNESCO и UNICEF у сарадњи са Министарством цивилних послова Босне и Херцеговине, Министарством просвјете и културе Републике Српске и Федералним министарством културе и спорта.

Објављени подаци у овој публикацији су резултат спроведеног истраживања и презентовани су у агрегираном-збирном облику. Публикација се састоји из три дјела. Први дио садржи методолошка објашњења, други дио преглед резултата са табелама или графичким приказом, а трећи дио садржи Анекс као додатак публикацији. Стање приказано у анализи је закључно са даном 31.12. 2010. године.

Изражавамо захвалност за финансијску подршку MDG-F програму „Култура за развој“, као и свим пословним субјектима који су пристали на анкетирање, те сарадницима који су учествовали на изради упитника, прикупљању, контроли, обради и припреми статистичких података.

## Методолошка објашњења

### Циљ истраживања

Статистика културе има за циљ пружање података о култури и активностима у контексту њеног доприноса запошљавању, развоју и интеркултуралном дијалогу, како би се испоштовали све израженији захтјеви за статистичким подацима из области културе. То подразумева захтјеве од стране корисника, као и захтјеве европског правног оквира регулисаног документом Статистички компендијум 2010 (Statistical Requirement Compendium 2010) који сваке године ажурира ЕУРОСТАТ. У контексту ЕУ, тему културе обухватају све статистике које се односе на културу и културне дјелатности укључујући и културне индустрије.

Култура је изузетно широка област која обухвата готово све активности којима се производе добра или пружају услуге од значаја за културу. Број људи запослених у култури, ниво јавних и приватних средстава, која су ангажована, те масовно учешће у културним активностима указују на то да је нужно постојање релевантних статистичких информација.

Културна индустрија, која се често назива и „креативном“ или индустријом „заснованом на ауторским правима“, обухвата широк спектар економских активности које укључују: архитектуру, занате и дизајнерски намјештај, моду, филм, видео и другу аудиовизуелну продукцију, графички дизајн, образовни и софтвер намијењен забави, музику уживо и музичке записе, извођачке умјетности и забаву, телевизијско, радио и интернетско емитовање, визуелне умјетности и антиквитете, писање и издаваштво, те рекламирање.

Стога је још један од циљева овог истраживања ажурирање основних података о пословним субјектима који су регистровани за обављање дјелатности из области културе у статистичком пословном регистру, те анализирање стања у области културе.

### Извори података

Јединице посматрања, односно извори података за ово истраживање, су све јединице које су регистроване за обављање једне или више дјелатности из области културе, а које се налазе у статистичком пословном регистру, сем самосталних предузетника/обртника.

Истраживањем су обухваћена 64 разреда дјелатности из области културе, укључујући и дјелатност удружења грађана у области културе. Све те дјелатности су у складу са Класификацијом дјелатности БиХ 2010 (КД БиХ 2010) која је усклађена са Статистичком класификацијом економских дјелатности у Европској унији NACE Rev.2, те према UNESCO-вом Оквиру за статистику у области културе. У току истраживања коришћени су разреди (на 4 цифре) и подразреди (на 6 цифара) дјелатности из области културе. У структури шифарског система КД БИХ 2010 разред представља четврти ниво (четвороцифрени број). За потребе статистике културе извршена је разрада на подразреде (шестоцифрени број) и израђен Извод из класификације дјелатности БиХ за област културе (ККД БиХ 2010)<sup>1</sup>.

Републички завод за статистику провео је истраживање на 1 827 пословних субјеката у Републици Српској, која су у статистичком пословном регистру регистрована за обављање једне или више дјелатности из области културе са стањем на дан 31.12. 2010. године.

Стање приказано у анализи је закључно са даном 31.12. 2010. године.

У Табели 18. дат је преглед броја субјеката према подзреду дјелатности из области културе у складу са Класификацијом дјелатности БиХ 2010, односно Изводом из класификације дјелатности БиХ за област културе.

Овој публикацији додат је Анекс у којем су приказани неки од података из других статистичких извора РЗС РС који су такође обухваћени овим истраживањем, а у сврху поређења података из два различита извора. У Табели 18. дат је преглед бруто додате вриједности културних дјелатности, док је у Табели 19. приказана запосленост у области културе. Подаци у наведеним табелама су добијени на основу спроведеног истраживања под називом „Истраживање пословних субјеката у области културе“ као и путем редовних статистичких активности: Полугодишњи извјештај о запосленим и платама – септембар и Националних рачуна. Подаци се односе на 2010. годину.

### Бруто додата вриједност културних дјелатности, производни приступ – текуће цијене

Бруто додата вриједност културних дјелатности добијена из оба извора („Истраживање пословних субјеката у области културе и Националних рачуна“) обрачуната је према методологији Система националних рачуна Уједињених народа (SNA93) и Европског система националних рачуна (ESA95), а према Изводу из Класификације дјелатности БиХ 2010 за област културе (стр. 32 и 33).

Табела 19. Бруто додата вриједност културних дјелатности

	„Истраживање пословних субјеката у области културе“	Национални рачуни
Бруто додата вриједност културних дјелатности, износ у КМ	578 553 852,30	592 108 000,00
Учешће културних дјелатности у БДП-у <sup>1</sup> , %	6,96	7,13

<sup>1</sup> Бруто домаћи производ (БДП) за Републику Српску у 2010. години износио је 8 308 120 000 КМ.

Из Табеле 19. може се видјети да нема значајне разлике у бруто додатој вриједности културних дјелатности и учешћу културних дјелатности у БДП између спроведеног истраживања под називом „Истраживање пословних субјеката у области културе“ и Националних рачуна. Настале разлике између наведених извора произилазе из концептуалних исправки које се раде у Националним рачунима.

### Запосленост у области културе

Подаци о броју запослених у области културе добијени из оба извора („Истраживање пословних субјеката у области културе“ и Полугодишњи извјештај о запосленим и платама – септембар) односе се на сва лица која имају заснован радни однос на неодређено или одређено вријеме са пуним или непуним радним временом, а према Изводу из Класификације дјелатности БиХ 2010 за област културе (стр. 32 и 33).

Табела 20. Број запослених у културним дјелатностима

	„Истраживање пословних субјеката у области културе“	Полугодишњи извјештај о запосленим и платама (Рад-1 септембар)
Број запослених у културним дјелатностима	11 068	11 625
Учешће запослених у културним дјелатностима у укупном броју запослених у свим дјелатностима <sup>1</sup> , %	5,4	5,6

<sup>1</sup> Укупан број запослених у свим дјелатностима у Републици Српској према редовном статистичком истраживању (Рад-1 септембар 2010) износио је 204 441.

Из Табеле 20. може се видјети да нема значајне разлике у броју запослених и учешћу запослених у културним дјелатностима у укупном броју запослених у свим дјелатностима Републике Српске између спроведеног истраживања под називом „Истраживање пословних субјеката у области културе“ и статистичке активности Полугодишњег извјештаја о запосленим и платама (Рад-1 септембар). Настале разлике између наведених извора су резултат различитог временског периода посматрања.

## Foreword

Republika Srpska Institute of Statistics carries out surveys in the field of cultural statistics, in accordance with the multiannual programme of Republika Srpska and the annual Working Plan, and these surveys are used to collect, process and publish data on radio and television stations, cinemas, theatres, libraries, museums, galleries and exhibitions, archives, and publishing activity. In order to achieve full coverage of cultural statistics, as well as because of the need for harmonisation with international standards, it is necessary to work on its further development and improvement.

Further development of cultural statistics presupposes activities aimed at improvement and harmonisation of methodological explanations based on recommendations and definitions of the UNESCO's Framework for Statistics in the field of culture and requirements of the EU Statistical Office (EUROSTAT), thus ensuring international comparability of data in the field of cultural statistics. These activities refer to improvement of coverage of business entities whose main and/or secondary activity is in the field of culture, collection of data on participation in culture, analysis of statistics on employment in culture, study of demand in terms of individual participation in various areas of culture, and collection of financial indicators in culture from secondary sources. Also, it is necessary to produce statistical data aimed at describing and providing relevant information on cultural institutions, and these would cover the number of institutions, number of employed persons, data on income and expenditure, data on visitors, etc.

The need to carry out the survey entitled "Survey on business entities in the field of culture" is recognised in the document "Analysis of lack of statistical sources of data on the cultural sector in Bosnia and Herzegovina", and it refers to implementation of the Action Plan for Implementation of the Strategy of cultural politics in Bosnia and Herzegovina, adopted by the Council of Ministers of Bosnia and Herzegovina in September 2011.

Questionnaire used to carry out this survey was designed by the Working Group composed of representatives of the Agency for Statistics of Bosnia and Herzegovina, Federal Institute of Statistics of the Federation of Bosnia and Herzegovina, Republika Srpska Institute of Statistics, UN agencies, Ministry of Internal Affairs of Bosnia and Herzegovina, Federal Ministry of Culture and Sports, and Ministry of Education and Culture of Republika Srpska, in accordance with recognised European practices and the recommendations of Eurostat.

Republika Srpska Institute of Statistics carried out this survey for Republika Srpska within the framework of the MDG-F programme "Culture for development: Improving intercultural understanding in Bosnia and Herzegovina" jointly implemented by UNDP, UNESCO and UNICEF, in cooperation with the Ministry of Internal Affairs of Bosnia and Herzegovina, Ministry of Education and Culture of Republika Srpska and Federal Ministry of Culture and Sports.

Data given in this publication are the result of the survey which was carried out, and these are presented in aggregated form. This publication consists of three parts. The first part covers methodological explanations, the second part provides the overview of survey results with tables and graphs, while the third part is the Annex to the publication. The situation presented in the analysis is as of 31<sup>st</sup> December 2010.

We would like to thank the MDG-F programme „Culture for development“ for their financial support, as well as all business entities who agreed to participate in the survey, and all collaborators who participated in design of the questionnaire and who were involved in collection, control, processing and preparation of statistical data.

## ●●● Methodological explanations

### ● Purpose of the survey

Purpose of cultural statistics is to provide data on culture and its activities in the context of their contribution to employment, development and intercultural dialogue, in order to meet increasing demands for statistical data in the field of culture. This presupposes demands by users, as well as requirements of the European legal framework regulated by the Statistical Requirement Compendium 2010 document updated each year by EUROSTAT. In the EU context, culture is covered by all statistics referring to culture and cultural activities, including cultural industries.

Culture is a very broad field which covers almost all activities performed to produce goods or provide services of importance for culture. Number of people employed in culture, level of public and private funds engaged, as well as mass participation in cultural activities all suggest that existence of relevant statistical information is a necessity.

Cultural industry, often also called “creative” or industry “based on copyrights”, includes a wide array of economic activities, and these are: architecture, crafts and designer furniture, fashion clothing, film, video and other audiovisual production, graphic design, educational and leisure software, live and recorded music, performing arts and entertainment, television, radio and internet broadcasting, visual arts and antiques, publishing and advertising.

This is why another purpose of this survey is to update main data on business entities registered to perform activities in the field of culture in the Statistical Business Register, as well as to analyse the situation in cultural industries themselves.

### ● Sources of data

Observing units, that is, sources of data for this survey, are all units registered to perform one or more activities in the field of culture, and which are present in the Statistical Business Register, except individual entrepreneurs/tradesmen.

This survey covers 64 classes of activities in the field of culture, including the activity of citizens associations in the field of culture. All these activities are in accordance with the Classification of Activities of Bosnia and Herzegovina 2012 (KD BiH 2010) which is harmonised with the Statistical Classification of Economic Activities in the European Union NACE Rev.2, and are in the field of culture according to the UNESCO’s Framework for Statistics. While carrying out this survey, classes (at 4 digits) and subclasses (at 6 digits) of activities in the field of culture were used. In the structure of the KD BiH 2010 code system class is the fourth level (four-digit number). For the needs of cultural statistics, classification into subclasses (six-digit number) was done, and the Excerpt from the Classification of Activities of Bosnia and Herzegovina for the field of culture was prepared<sup>1</sup>.

Republika Srpska Institute of Statistics carried out the survey on 1 827 business entities in Republika Srpska, which were registered in the Statistical Business Register to perform one or more activities in the field of culture, as of 31<sup>st</sup> December 2010.

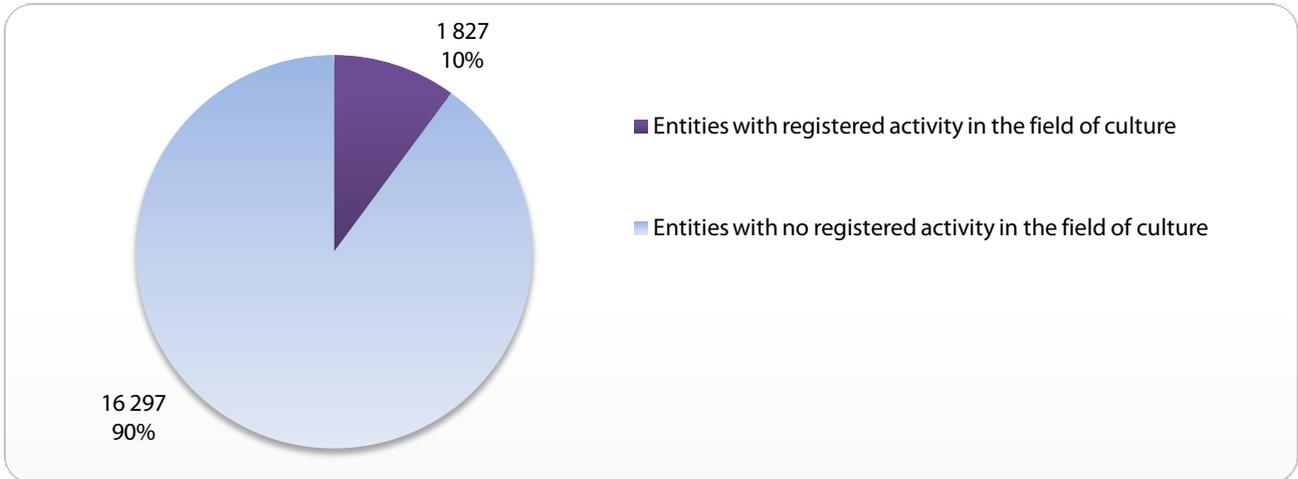

The analysis is as of 31<sup>st</sup> December 2010.

<sup>1</sup> For better understanding of the meaning of classes in the Classification of Activities of Bosnia and Herzegovina 2010, refer to the structure and coding system in the KD BiH 2010, pages 32 and 33.

Table 18. provides an overview of number of entities by subclass of activities in the field of culture, in accordance with the Classification of Activities of Bosnia and Herzegovina 2010 and the Excerpt from the Classification of Activities of Bosnia and Herzegovina for the field of culture.

## Annex

An Annex providing certain data obtained from other statistical sources of data of RSIS which were also included in this survey was added to this publication, with the purpose of comparison of data obtained from two different sources. Table 18. provides an overview of gross value added in cultural activities, while Table 19. gives data on employment in the field of culture. Data in these tables were obtained through the survey entitled "Survey on business entities in the field of culture", as well as through regular statistical surveys Semi-annual report on employed persons and wages – September and National Accounts. Data refer to 2010.

### Gross Value Added in cultural activities, production approach – current prices

Gross Value Added in cultural activities obtained from both sources ("Survey on business entities in the field of culture and National Accounts") was calculated using the methodology of the United Nations System of National Accounts (SNA93) and European System of National Accounts (ECA95), on the basis of the Excerpt from the Classification of Activities of Bosnia and Herzegovina 2010 for the field of culture (pages 32 and 33).

**Table 19. Gross Value Added in cultural activities**

	„Survey on business entities in the field of culture“	National Accounts
Gross Value Added in cultural activities, amount in KM	578 553 852,30	592 108 000,00
Share of cultural activities in GDP <sup>1</sup> , %	6,96	7,13

<sup>1</sup> Gross Domestic Product (GDP) for Republika Srpska in 2010 was 8 308 120 000 KM.

Table 19. shows that there were no significant differences between gross value added of cultural activities and percentages of share of cultural activities in GDP obtained through the survey entitled "Survey on business entities in the field of culture" and through National Accounts. The existing differences between these sources emerged due to National Accounts' conceptual adjustments.

### Employment in the field of culture

Data on number of employed persons in the field of culture obtained from both sources ("Survey on business entities in the field of culture" and Semi-annual report on employed persons and wages – September) refer to all persons employed on a temporary or permanent basis, full-time or part-time, on the basis of the Excerpt from the Classification of Activities of Bosnia and Herzegovina 2010 for the field of culture (pages 32 and 33).

**Table 20. Number of employed persons in cultural activities**

	„Survey on business entities in the field of culture“	Semi-annual report on employed persons and wages (RAD-1 September)
Number of employed persons in cultural activities	11 068	11 625
Share of persons employed in cultural activities in the total number of employed persons in all activities <sup>1</sup> , %	5,4	5,6

<sup>1</sup> Total number of employed persons in all activities in Republika Srpska according to the regular statistical survey (RAD-1 September 2010) was 204 441.

Table 20. shows that there were no significant differences between numbers of employed persons and share of persons employed in cultural activities in the total number of employed persons in all activities in Republika Srpska, obtained through the survey entitled "Survey on business entities in the field of culture" and through the statistical survey Semi-annual report on employed persons and wages (RAD-1 September). The existing differences between these sources emerged due to different observing periods of time.

**Радио и телевизијске станице** су предузећа или јединице у саставу других предузећа које преко својих емисионих радио и телевизијских предајника емитују програм намијењен јавности.

Републичке радио и телевизијске станице обезбјеђују пријем радио и телевизијског дифузног програма на територији Републике Српске.

#### КИНЕМАТОГРАФИЈА

**Биоскоп** је сала или отворени простор опремљен уређајима за јавно приказивање филмова.

Биоскопи раде као стални биоскопи, љетне биоскопске баште и покретни (путујући) биоскопи.

**Стални биоскопи** приказују филмове у одређеној сталној сали. Ако биоскоп има двије сале опремљене за приказивање филмова (кинопројектор, платно и сједишта), свака сала се сматра посебним биоскопом.

**Љетна биоскопска башта** се сматра биоскопом уколико је опремљена сопственим уређајима за приказивање филмова, било да је самостална или у саставу сталног биоскопа. Биоскопом се не сматра љетна биоскопска башта која је у саставу сталног биоскопа, а ради само у вријеме када биоскоп, у чијем је саставу, не ради.

**Покретним (путујућим) биоскопом** сматра се биоскоп који иде из мјеста у мјесто и приказује филмове у сали или на отвореном простору.

**Биоскопска представа** је јавно приказивање филмског програма (пројекција дугометражног или краткометражног домаћег и страног филма).

#### ПОЗОРИШТА

**Дјечије позориште** је културно-умјетничка установа која даје представе за дјецу. Може бити самостално или у саставу другог предузећа - установе.

#### CINEMATOGRAPHY

*Cinema is a hall or an open space equipped with devices for public projection of films.*

*Cinemas work as regular cinemas, open summer cinemas or mobile (travelling) cinemas.*

*Regular cinemas perform film projections in a certain regular hall. If a cinema has two halls equipped for film projections (film projector, screen and seats), each hall is considered a separate cinema.*

*Open summer cinema is considered a cinema provided it is equipped with its own devices for film projection, irrespective of being independent or within a regular cinema. Open summer cinema is not considered a cinema if it is in composition of a regular cinema and works only when that cinema does not work.*

*Mobile (travelling) cinema is considered a cinema that travels from place to place and projects films in a hall or in the open.*

*Cinema projection is a public projection of film programme (projection of feature or short films, domestic or foreign).*

## Executive Summary of the Report

In writing this summary, please include the main achievements and challenges in implementing the Convention and, where appropriate, an outlook for the future. ?

(Maximum 500 words)

Bosnia and Herzegovina is a country consisting of two entities (the Federation of Bosnia and Herzegovina - FBiH and the Republic of Srpska - RS) and the Brcko District. The entity of the Federation of Bosnia and Herzegovina is further divided into 10 cantons that have their own responsibilities in the field of culture, which are then subdivided into municipalities.

Bosnia and Herzegovina ratified the Convention on the Protection and Promotion of the Diversity of Cultural Expressions in April 2009 and thus confirmed the need to elaborate and develop the authenticity of the existing cultural expressions based on the historical and cultural particularities of Bosnia and Herzegovina and to create new expressions. In this regard, certain activities were undertaken to implement the obligations arising out of the Convention. The Information and the text of the Convention are forwarded to all entity and cantonal ministries of culture for its implementation.

The Culture Development Strategy in Bosnia and Herzegovina was adopted by the Decision of the Council of Ministers of B&H in late 2008. The Action plan for implementation of the Culture Development Strategy in B&H 2011-2014 was adopted by the Council of Ministers of B&H on 15th of September 2011.

The Federal Ministry of Culture and Sport is implementing above mentioned action plan. Also, the Government of Federation of B&H passed the Development Strategy of Federation of Bosnia and Herzegovina 2010 - 2020 in 2010, a strategic document which represents the first long-term projection of a comprehensive reform in the culture of Federation of B&H.

The Republic of Srpska Culture Development Strategy 2010-2015 is adopted by the decision of the RS National Assembly at its 35 session, held on 17 February 2010. The Culture Development Strategy of the RS was developed by the Ministry of Education and Culture, Department for Culture in co-operation with the cultural institutions and NGO sector of the RS. Action plans of the Culture Development Strategy of the RS have been developed.

The above mentioned strategic policy documents are solid basis in B&H for all the necessary steps for the further policy and related legislation harmonization and development, awareness-rising, promotion and implementation of the Convention 2005. Thus it is the basis for the preservation, protection and promotion of cultural diversity and especially for the development of cultural industries, sustainable development, economy and trade.

## 2.1. Cultural policies and measures

### b) How has it been implemented?

If we summarize the public calls from the perspective of the entire cultural production, as well as the size of the population of the Federation of B&H, it represents a form of public financial support for a large share of cultural projects. An approved project may be co-financed through the public call up to 50% of the amount of total funds necessary for its realization. In case of projects of special importance for the Federation of Bosnia and Herzegovina, they may be co-financed in an amount higher than the stated one. Very important is to not forget that 10 cantonal ministries have their own budgets and public-calls for co-financing cultural and artistic projects. This legal measure fosters realization of the set goals which, among other, include balanced territorial development of culture and creation of conditions for realization and development of all areas of cultural and artistic creation, but also to protect and promote diversity of cultural expressions differentiated according to areas of the public call. This form of regular annual support to cultural and artistic creation is in the spirit of measures for protection and promotion of diversity of cultural expressions provided for in the Convention, under Article 6 paragraph 2 items d, e and g.

#### The RS

Subsidizing NGOs - through a public call, in accordance with the Regulations on Co-financing of Public Needs in Culture (Official Gazette of the Republic of Srpska, No. 7/10), which serves as a basis to publish open calls, provides the support to the projects promoting artistic creativity and cultural diversity in different fields of art and culture. Encouraging cooperation between artists and their participation in the territory of Bosnia and Herzegovina, in the region and across Europe and around the world, contributes to cultural diversity.

The Regulations on Specific Criteria and Procedure to Allocate the Games of Chance Revenues (Official Gazette of the Republic of Srpska, No. 110/10) serves as a basis to announce the competition for the allocation of the games of chance revenue. The basis for the allocation of these funds by the Ministry is the condition that the organization has already been supported by some of the international donors or funds.

a) What are the main objective(s) of policy or measure? When was it introduced?

The RS

Support for the improvement of the climate for creative artists in RS and improvement of social status and mobility of artists is in part carried out on the basis of the Law on the Acquisition of the Independent Artist Status (Official Gazette of the Republic of Srpska, No. 50/10), which introduces the concept of an independent artist and provides for procedures to acquire the independent artist status.

The rights and obligations of independent artists are regulated by the Law on Pension and Disability Insurance (Official Gazette of the Republic of Srpska, No. 134/11) which defines independent artists as insured persons and, based on that, they are entitled to payment of voluntary insurance. The Health Insurance Law (Official Gazette of the Republic of Srpska, No. 18/99, 51/01, 70/01, 51/03, 17/08 and 1/09, 106/09) enables unemployed persons to exercise the right to health insurance, regardless of their profession, and so do artists.

The Ministry of Education and Culture supports the publishing in RS by co-financing the publication of literary and artistic works in RS through the competition to co-finance the publishing, and in particular defines the first book by the author category. Interpretation business is inseparable part of the literature, and given the fact that this area in RS is not sufficiently developed and represented, the Ministry, within the above competition, gives preference to translation projects.

The Ministry also provides support to publishing by co-financing book fairs and presenting our publishing houses and writers at fairs in the region, but also in the most important international fairs (Leipzig, Thessaloniki, Belgrade).

According to the Publishing Activity Law, natural or legal persons registered for conducting publishing activities in the relevant ministry and in court may be engaged in issuing publications. According to the ISBN Agency data (which is part of the National and University Library (NUB) of RS) 280 publishers exist in RS, while the Register of Publishers, which is kept in the Ministry of Education and Culture, contains 338 entities which may perform this activity. Unfortunately, the Law did not provide for the categorization of persons whom publishing is primary or secondary activity. The Ministry also keeps the Public Media Register.

The field of film in RS is governed by the cinematography legislation, as the Cinematography Law (Official Gazette of the Republic of Srpska, No. 37/09) and four respective bylaws are adopted.

## 2.1. Cultural policies and measures

In regard to the measures being carried out, the fact is that the Ministry of Education and Culture of RS subsidizes film through competitions to co-finance film activities.

Based on the Law on the Archives of RS (Official Gazette of RS, No. 119/08), the RS Cinematheque is established and holds a valuable film material, while the RS Law on Cinematography provided for the establishment of the RS Cinematography Development and Promotion Centre, the public institution aiming to create a favorable environment for the development of film production, co-production, as well as to attract foreign film producers and projects.

Several co-productions with the Federation of BiH have been implemented, as well as with neighboring countries: Serbia, Montenegro, Croatia and Slovenia. Two co-productions have been made with the main producers being authors in RS. 2009. 2009 is particularly significant because of "32 December" film, which is considered the first feature film with the majority RS co-production, and the production and realization are entirely done in the capacity of RS film workers. This film has won significant awards and toured the world as part of its festival journey.

The documentary film is of particular importance. About twenty documentary films and one animated film have been made in the RS production, while some of them received significant international recognitions. In terms of participation and contribution to the development of cinematography in RS, the Association of RS Film Workers is established with a view to improve filmmaking and film production in RS.

a) What are the main objective(s) of policy or measure? When was it introduced?

The RS

Part of Education for Culture, the RS Culture Development Strategy, specify priorities: creative programme in schools, education/arts for culture and development of the audience (a continued process of building a "loyal" audience by institutions and organizations through training, workshops, and progressive marketing).

Curricula that are updated regularly and contain subjects in the field of art are developed based on the Law on Pre-school, Primary, Secondary and Higher Education of RS. In addition, art is incorporated into other subjects, so an improved level of creative expression of students is achieved in secondary schools, such as drawing, painting, literature, creative writing, music, dance, sports and drama, integrated into subjects that do not deal with art. Sports, film and/or new media arts and new forms of popular artistic expression are integrated into the teaching activities of other subjects. Also, there are classes of the arts where students work with artists, creators, designers, and the competition is organized within cultural creative workshops in the mainstream education system, and there are exhibitions and awards are presented for the best works.

The classes to foster cultural heritage and tradition are also organized, such as the old crafts, which are typical for a certain community.

There are primary and secondary music schools in RS. Based on the above Laws in the field of education, there are 11 music schools in RS, of which there are 4 primary and secondary music schools, while 7 of them are only elementary music schools. In addition to primary and secondary schools, art and culture are also represented in higher education institutions specialized in this area – in the two public institutions - the Arts Academies in Banja Luka and East Sarajevo, where the following study programmes are taught: drama programme, which includes acting, theater directing, dramaturgy, film and television and others; art and music programmes, etc. All of these educational institutions are also financed by the Ministry of Education and Culture of RS.

The Law on Education and Scholarships of Young Talents is adopted in 2010 (Gazette of the Republic of Srpska, No. 73/10). The prizes in the field of theater and cinema production are also established within festivals.

The RS Cinematheque has launched a multi-year project designed for students of these colleges - Summer Movie Campus in the RS Cinematheque - with the participation of university professors, well-known filmmakers, film historians, film archivists, students -

a) What are the main objective(s) of policy or measure? When was it introduced?

The RS

In order to implement the UNESCO Convention on the protection and promotion of diversity of cultural expressions, in the part related to the contribution of culture to sustainable development and intercultural dialogue, the Intersectoral Group on Culture is established on the initiative of the Ministry of Education and Culture (see section 2.2). In this sense, more ministries are responsible for the implementation of the Convention and contribute to intercultural dialogue in the fields that are not primarily the field of culture, but they do have a common field of work. In addition, the Ministry supports the programme content and activities of cultural institutions and the NGO sector where the contribution to respect for diversity and diversity of cultural identities is visible. Moreover, the intercultural dialogue in RS is also implemented in the global context, and cooperation with UNESCO (UNDP, UNICEF), the Council of Europe, cultural centers and institutes of the European countries such as Russia, China, Germany, France, England, Switzerland, etc.

Minorities

The Law on the Protection of National Minorities in RS (Official Gazette of RS, No. 02/04) is in force and regulates the rights and obligations of members of national minorities and obligations of the authorities to respect, protect, preserve and develop ethnic, cultural, linguistic and religious identity of each member of a national minority. As the needs of ethnic minorities are different, it means that they are under the responsibility of several ministries: Ministry of Education and Culture: the Law on Primary Education (Official Gazette of the Republic of Srpska, No. 74/08, 71/09 and 104/11).

The language and culture of national minorities in RS is respected and used in schools to the greatest possible extent, in accordance with the Framework Convention for the Protection of National Minorities and the Law on the Protection of National Minorities (Official Gazette of the Republic of Srpska, No. 2/05). There is a Federation of National Minorities in RS that has the status of the association of public interest to RS and currently covers 14 associations of national minorities in RS.

The Ministry of Education and Culture of RS, in accordance with the provisions of the Regulations on the Co-financing of Public Needs in Culture (Official Gazette of the Republic of Srpska, No. 7/10), co-finances cultural activities of national minorities on a regular basis through public competition for co-financing projects in culture, in order to promote their language and their cultural heritage.

The Radio and Television of RS, as a public service of RS, provides a special news program for national minorities in their languages once a

week. Projects of national minorities are funded from a variety of sources: the Ministry of Administration and Local Self-Government finances the work of the Federation of National Minorities - the umbrella organization.

### Youth

Developing a "community spirit" is the main thread in the Youth Policy document of RS. Important connection is made between this aspiration and implementation of intercultural society. Until now, the Ministry of Education and Culture in its regulations only allows for funding of projects in which cultural content is an imperative, and a new approach has enabled transversal approach to funding by more competent ministries and local communities.

### Persons with special needs

RS implements activities that contribute to improving the status of persons with disabilities in terms of meeting the cultural, intellectual and creative needs of persons with disabilities.

The Ministry of Education and Culture participated in drafting the Strategy of Inclusion of Persons with Disabilities in Society (Official Gazette of the Republic of Srpska, No. 83/10) within the Intersectoral Authority of the RS Government to support persons with special needs. Many barriers are removed and significant benefits for people with special needs are introduced. Cultural institutions make cultural heritage and art available to persons with special needs and all disadvantaged categories of population.

In addition, the contribution of the Ministry of Education and Culture in this sense refers to the significant support the NGO sector or associations of persons with disabilities registered for cultural and artistic activities, so that their projects are co-financed through an annual competition for funding of projects in culture.

a) What are the main objective(s) of policy or measure? When was it introduced?

The Ministry of Economic Affairs and Regional Cooperation of RS is responsible for international and regional cooperation and coordination of the European integration and the process of legislation harmonization. In this regard, this Ministry is a responsible institution in terms of coordination of all activities of the RS institutions and fund management in the process of EU integration. In this context, the Ministry of Economic Affairs and Regional Cooperation of RS is responsible for the representation of RS abroad, while the Ministry of Education and Culture of RS is consulted with regard to the promotion of RS through culture and art.

International and regional cultural cooperation is conducted on the following priorities: presentation and promotion of cultural content (export of cultural products of RS); improving the mobility of domestic and foreign artists and cultural workers (influence the legislation and allocate adequate funding for this type of support); and intensive promotion of cultural and artistic content and artists from RS abroad. In this sense, the major developments and activities in the field of international and regional cooperation taking place in accordance with the cultural policy and strategy in RS are:

- The budget for international cultural cooperation is incorporated in the budget for culture, and finances cultural institutions and representatives of the Ministry to participate in international projects, programmes and seminars;
- The Ministry of Education and Culture of RS plans funds for this purpose and allocates them in accordance with the Regulations on Co-financing of Public Needs in Culture (Official Gazette of the Republic of Srpska, No. 7/10), which serves as a basis to announce competitions;
- The Regulations on Specific Criteria and Procedure to Allocate the Games of Chance Revenues (Official Gazette of the Republic of Srpska, No. 110/10) serves as a basis to announce the competition for the allocation of a part of games of chance revenue. - Careful selection of cultural events abroad to support or to send artists to;
- Capacity building concerning training of expert staff in the Ministry of Culture and the RS cultural institutions in terms of international cooperation;
- Strengthening the participation of RS in international organizations;

and countries in the region, Russia, China and the EU.

RS achieves the cooperation with European and international organizations - the Council of Europe, the European Union and UNESCO, UNDP, and other international organizations. In terms of cooperation with UNESCO, in the field of the implementation of UNESCO Conventions, RS has its representatives - experts in this field. As for the EU programmes and Culture Programme 2007-2012, RS established a contact point for culture in 2011. Also, in terms of the film co-production programme Euroimages Fund of the Council of Europe, RS has its representative in this programme.

Bilateral agreements in the field of culture promote networking of artists, as well as public and private institutions dealing with culture and art. All these forms of cooperation allow for the direct contact between the RS artists and artists from abroad.

Numerous visits of local artists abroad marked 2011. The Children's Theatre of RS and Mixed Choir of the Serbian Singing Society "Unity" appeared in Russia, the Banja Luka Philharmonic in Sweden, the chamber choir "Banjalucanke" in Italy and Malta, then cultural and artistic association "Veselin Masleša" performed abroad, the participation of Marina Radulj and Monika Ponjevic, young Banja Luka artists, in the Prague Quadrennial. The exhibition of Mladen Miljanovic was displayed in Berlin and the exhibition "Spaport" of the Centre for Visual Communication "Protok" in Vienna.

## 2.3. Integration of culture in sustainable development policies

Narrative description of your country's strategy to integrate culture in sustainable development policies:

(Maximum 250 words)

The Government of Federation of B&H passed the Development Strategy of Federation of Bosnia and Herzegovina 2010 - 2020 in 2010, a strategic document which represents the first long-term projection of a comprehensive reform in the culture of Federation of B&H. One of the missions within this Strategy, is to place the field of culture within the context of sustainable development, and to promote its resources as areas favorable for investment.

The Federal Ministry of Culture and Sport through the funded projects and programmes in last 8 years is showing and demonstrating that the public cultural infrastructures, i.e. cultural centers, play a key role in promoting cultural education and cultural participation, as well as they contribute to eliminate exclusions and marginalization. Moreover, they are also crucial in creating an enabling environment for the emergence of dynamic cultural sectors and cultural clusters. Indeed, cultural operators face serious difficulties in establishing viable enterprises without the basic infrastructure, such as access to capital, distribution venues, and management training. Cultural infrastructures are, thus, essential in making culture "work" for sustainable development at all levels. Therefore, the Federal Ministry of Culture and Sport earmarked a large sum of money from the Budget for conservation, reconstruction, restoration and rehabilitation of 30 cultural facilities (most of them are cultural centers), 16 public facilities, 60 sacral object of cultural heritage, 17 old towns, 8 movable cultural properties, 11 necropolis and archaeological localities.

In the Development Strategy of Federation of Bosnia and Herzegovina 2010 - 2020 is stated that the culture and cultural capital is a means of achieving long-term goal: sustainable cultural development of the Federation of B&H. In this document cultural products and cultural industries are recognized as an area interesting for investments as well as sustainable development.

Has the impact of this policy / measure been investigated?

No  Yes

If yes, what was the impact :

Cultural centers contributed in elimination of exclusions and marginalization of the citizens especially cultural centers in small towns and rural areas of the Federation of Bosnia and Herzegovina. Cultural centers also play key role in promoting cultural education, participation, activity and social inclusion. The impact of cultural products and cultural industries are very important and significant because they contribute to the national GDP. Study surveying the businesses in the sector of culture according to their structure and contribution to gross domestic product has been developed in 2011. Report on indicators for measuring of the contribution of culture to development used in Bosnia and Herzegovina presented the data of 6.7% share of culture in GDP.

What indicators were used to lead to this conclusion?

Indicators used to this conclusion are reports from the cultural centers and NGOs about events/manifestations/festivals that have been organized there with photographs, publications and DVDs. Also representatives of the Federal Ministry of Culture and Sport have been guests many times during these events which promoted diversity of cultural expressions and cultural diversity. The cultural and creative industries contribute to the national GDP according to the Report on indicators for measuring of the contribution of culture to development used in Bosnia and Herzegovina. This sub-dimension examines the primary income for all those engaged in creative activities, as well as those whose task is to manufacture products with symbolic content. Taking into account the income and value added generated by cultural activities, the indicator shows that these activities are part of the country's production, and that they help generate income and sustain the livelihood of its citizens.

a) What are the main objective(s) of policy or measure? When was it introduced?

The RS

In today's world of globalization, culture is increasingly entering into the field of sustainable development and as such it is an integrated part of economic and social documents of sustainable development. Culture in many countries has become a factor that contributes to the increase in total GDP. In this regard, based on the Convention on the Protection and Promotion of Diversity of Cultural Expressions, the Intersectoral Group on Culture in RS is established on the initiative of the Ministry of Education and Culture of RS and consists of representatives of the following ministries of the RS Government and relevant administrative organizations and institutions: Ministry of Finance, Ministry of Economic Relations and Regional Cooperation, Ministry of Trade and Tourism, Ministry of Industry, Energy and Mining, Ministry of Science and Technology, Ministry of Agriculture, Forestry and Water Management, Ministry of Public Administration and Local Self-Government, Republic Institute for Protection of Cultural, Historical and Natural Heritage, Ministry of Family, Youth and Sports, Ministry of Labour, War Veterans and Disabled Person's Protection, Ministry of Health and Social Welfare, Ministry of Justice, Chamber of Commerce, Tax Administration.

The Intersectoral Group on Culture aims not only to integrate culture and cultural heritage into cohesion policies, different RS development strategies and implement specific measures for the integration of culture into this field, but also to integrate policies and strategies and other ministries into the culture development policy and strategy of RS.

Within the Intersectoral Group on Culture of RS, the Ministry of Education and Culture and the Ministry of Industry, Energy and Mining co-financed the publication of the book "Old Crafts in RS" prepared by the RS Museum, which came out of the press in September 2012. It can also contribute to improving the business of small entrepreneurs, and therefore tourism in the field of cultural tourism and sustainable rural tourism, and improving the conditions for the creation of new jobs.

## 2.3. Integration of culture in sustainable development policies

The work of Intersectoral Group on Culture is of great importance in terms of stimulating culture through tax incentives and tax on culture in order to create favorable conditions for the development of cultural industries, as well as the integration of social rights of independent artists in the respective legislation of RS to achieve basic human rights - right to work, and thus the right to life, which also contributes to the achievement of successful international cooperation in the framework of the mobility of artists and works of art/cultural property.

The field also related to the intersectoral cooperation is the integration of people with special needs in the field of culture, as well as national minorities, which was already mentioned above.

An analysis of the situation in creative industries is conducted in cooperation with the RS Statistics Institute. This project was implemented thanks to the participation in the UNDP project entitled "Culture for Development in Bosnia and Herzegovina", as one of the UN Millennium Development Goals. The analysis was conducted with the recommendations and definitions of the UNESCO Framework for Cultural Statistics and requirements of the EU Statistical Office (Eurostat), which ensures international comparability of data in the field of cultural statistics. Data were collected from businesses whose primary and/or secondary activity is in the field of culture, employment in culture, individual participation in the various fields of culture, as well as the collection of financial indicators from secondary sources. In this way, culture is directly related to the creation of new jobs which open up the area for profit of many individuals and groups, and thus culture directly or indirectly influence the development of economic and social policy in RS. The analysis conducted just confirms that claim. The Institute published the research conducted in the publication that consists of methodological explanations, the overview of results with tables or diagrams, and the third part is an Annex, as the supplement to the publication.

Gross value added of cultural activities in RS was 578, 553, 852.30 KM in the total gross domestic product (GDP) in 2010, which amounted to 8,308,120, 000.00 KM, which means that the share of cultural activities in GDP is 6.96%. Gross added value of cultural activities was obtained from both sources (Research of Business Entities in the Field of Culture and National Accounts) and calculated according to the methodology of the System of National Accounts (ESA95), and pursuant to the excerpt from the Classification of Economic Activities in 2010 for the field of culture (p.32 and 33). This indicator should provide a better understanding when planning budget for culture, which, at this point, is less than 1%, so the funds are insufficient to implement all the above objectives of the Action Plan of the Strategy .

Within the European Heritage Days 2009 manifestation held in Sarajevo on the protection of intangible cultural heritage traditionally organized by the Federal Ministry of Culture and Sport, an overview of the importance of the goals promoted by the Convention on the protection and promotion of diversity of cultural expressions, as well as the importance of the document itself, was given in a Round table.

### 3.2. Civil society

Civil Society may provide information on activities they are pursuing such as:

- promoting the objectives and principles of the Convention within their territories and in the international fora
- promoting ratification of the Convention and its implementation by governments
- bringing the concerns of citizens, associations and enterprises to public authorities
- contributing to the achievement of greater transparency and accountability in the governance of culture

#### The FB&H

The number of nongovernmental organizations in Federation of B&H are registered for activities in the field of culture. However, only a small number of NGOs is an active participant of cultural and artistic productions. Nongovernmental organizations and other associations with good managerial and creative personnel and with relatively low resources are able to realize important projects.

The role of NGO sector in implementation of the Convention on the Protection and Promotion of Diversity of Cultural Expressions is present in the part relating to production, expansion and distribution of cultural activities, goods and services through a public call for cofinancing of programmes and projects in various forms of creation. This is not the only but it is certainly one of efficient types of support and strengthening of the position of NGOs in culture.

As part of the legislative power, almost all levels of the government in B&H have commissions/committees on culture, which were established as part of the parliaments and assemblies. These commissions are usually, in addition to culture, covering several areas such as education, sports, NGOs, youth issues, etc. Two thirds of the members of these committees are members of parliaments and assemblies, while one third is made up of experts in these areas. These commissions act as the working bodies of the assemblies, and their function is to provide opinions, make suggestions, and report on the protection of cultural heritage, the establishment, development, and financing of cultural institutions, the adoption of new regulations, the organizing of events, the distribution of public funds, etc.

At the executive level, there are councils for culture, which acts as advisory bodies to the ministry responsible for culture and for the municipalities, that is, the municipal councils/ assemblies. These councils are formed by the government / the municipal mayor, and upon the proposal of the cantonal ministry/ municipality. They consist of 5 to 10 members, of whom two-thirds are the representatives of the Assembly, and one third are professionals. Some of the tasks of the Council members are: the determining of the content and guidelines for the development of programs in the area of culture, the participation in their preparation, monitoring, and evaluation of their implementation, the providing of initiatives for changes, the assessing of conditions, and the development of cultural domains, the providing of opinions on legislative proposals, etc.

## 4. Main achievements and challenges to the implementation of the Convention

(Estimate: 1750 words)

Parties and other participating stakeholders are to share information on:

### a) main results achieved in implementing the Convention

The FB&H

Realization of the goals and principles of the Convention on the Protection and Promotion of the Diversity of Cultural Expressions are reflected in the following results achieved in the culture of Federation of B&H: partly completing the normative framework in culture in accordance with European standards, accession to regional and international programmes for cooperation, continuous public financial assistance, involvement of NGO sector as the holder of a significant share of cultural production, initial steps in development of cultural capital/cultural industries/cultural products as an area interesting for investments and as a segment of sustainable cultural development, affirmation of cultural diversities in the time of globalization and strengthening social cohesion of society at the territory of Federation of Bosnia and Herzegovina.

The RS

All of the above measures and activities require greater financial support and continued training of key stakeholders, both in the public sector and civil society.

There has been progress in terms of film productions and co-productions, which is a result of the relevant legislation in RS. Also, we can see the efforts in terms of publishing and music and performing arts. However, all these fields need much greater financial investment to achieve the international standard and quality, so that the RS artists could equally participate in international projects.

### b) main challenges encountered or foreseen

The FB&H

Basic challenges in implementation of the Convention are transparency in creation of cultural policies at the territory of Federation of B&H and respect for equality and particularity of cultural needs of all cultural groups. Also, challenges in strengthening of cultural industries and cultural products and its stimulation through the active cooperation between the public and civil sector.

### c) solutions found or envisaged to overcome those challenges

The FBiH

Realization of the economic aspect of the development of culture through creation of cultural policy supporting diversity of contemporary creation, equal access to development opportunities for creative industries, strengthening of local markets and provision of access to international markets.

### d) steps planned for the next four years towards implementation of the Convention and priority activities to be undertaken during that period

The FB&H

The Federal Ministry of Culture and Sport is going to keep the promotion and awareness raising of the Convention in the next four years through the same policy measures mentioned in this report. Also, the Ministry will try to explore and implement new policy measures with an aim of realization of the Convention's goals and principles. The Federal Ministry of Culture and Sport will keep with affirmation of the multiculturalism and pluralism by supporting projects of cultural uniqueness and cultural tradition at the territory of Federation of B&H as well as building inclusive and creative society and increasing literacy of diversity and its expressions.

The European Heritage Days, manifestation traditionally organized by the Federal Ministry of Culture and Sport, in 2013 will be held in City of Gorazde and the topic will be Intangible Cultural Heritage. Therefore, during the manifestation principles and goals of the Convention will be promoted to participants and guests in order to raise awareness about the importance of diversity of cultural expressions in the Federation of B&H as well as in Bosnia and Herzegovina.

The RS

International and regional cooperation will be one of the top priorities concerning the intercultural dialogue, whose implementation is provided through bilateral and multilateral cooperation.
