Executive Summary

Please summarize in max 3500 characters the main achievements and challenges in implementing the Convention and the outlook for the future. Please note this is not an introduction to the report or an annotated table of contents.:

The Republic of Albania ratified the UNESCO Convention on Cultural Diversity on 17.11.2006 and since then, the Ministry of Culture of Albania and its public institutions has undertaken policies and plans to implement the obligations deriving from the Convention. The main objectives in broad terms has been strengthening the place and the role of culture in the policies and programmes compiled by the Ministry of Culture of Albania,

which is the main institution responsible for implementation of the Convention, strengthening the contribution of culture to sustainable development and increasing collaboration with other countries in the field of cultural industries, promoting intercultural dialogue through implementation of different projects, awareness-raising activities and exchanges of good practice. Since the entry-into force of the Convention the MoC has increased its efforts to support the flourishing of cultural expressions according the principles of Article 2 of the Convention by: establishing a yearly grant for financing of cultural activities, by introducing schemes to promote artistic creativity, by increasing the international cooperation and intensifying cultural exchanges, by creating the necessary conditions to preserve and transmit cultural expressions to future generations, by involving the civil society and especially the young in all cultural policy and legal framework debates, by intensifying interministerial cooperation, by supporting digitization of cultural expressions and their bearers, by initiating and participating in exchange programs and artists in residencies, as well as in EU related programmes, by increasing collaboration with the local government, by increasing fund raising efforts and foreign investments, etc. Emphasis is placed on the potential of intangible cultural heritage to promote cultural diversity and inclusion, and in particular the recognition of minority culture and heritage. One of the challenges of the implementation of the Convention is the gathering of qualitative as well as quantitative data as well as mapping the current situation. To this end, the Ministry of Culture of Albania is already collaborating with UNESCO for the establishment of "Culture for Development Indicators" in Albania. When this program will be implemented within year 2017, a new perspective will be set for the implementation of the present Convention. Moreover, the information and the text of the Convention has been translated, published and distributed in several workshops and conferences organized by the Ministry, thus promoting and raising awareness on the principles of the Convention. The yearly action plans of the Ministry of the Culture reflect the recommendations of the Convention in supporting the creation, distribution and enjoyment of the cultural expressions. Thus it is the basis for the preservation, protection and promotion of cultural diversity and especially, for the development of cultural industries as an important factor for contributing in economy and trade. Creating and improving the necessary conditions to help diversity of cultural expressions to flourish, will continue to be an important objective of the Ministry of Culture.

Overview of cultural policy context

Parties shall describe the key objectives and priorities of their current cultural policy and the impact the Convention has had in their formulation or reformulation. They will also report on the opportunities and challenges to promote the diversity of cultural expressions in a digital environment.:

The Ministry of Culture, in accordance with the program of the Government of the Republic of Albania, designs, plans and develops national policies of culture, cultural heritage, promotion of religious tolerance, cultural dialogue and cultural integration in the European family and wider world. This ministry is the main institution that carries out major projects in the field of arts and culture in cooperation with many actors, as central cultural institutions, as well as cultural and artistic associations, as well as independent creators of various cultural fields in the country. Priorities of Ministry of Culture, according to the Government Program "Art and Culture" 2013-2017, were:

Creation of a legal and strategic framework in support of art and culture professionals.

Updating of the legal framework and its alignment with the legal framework of the European Union and UNESCO, implementing a full legislative reform for the well-functioning and administration of new beneficiary schemes of culture, namely to mention the new Copyright Law, as well as the Law on Cultural Heritage, the amendment of the Law on Book, the drafting of the new pension law for special categories of artists, etc.

Artistic education of the younger generation and their new approach to cultural institutions through dedicated calendars.

Investments in the buildings and facilities with cultural functions, construction of several theaters and cultural centers, etc.

A sustainable institutional reform, through a new managerial approach to art-culture institutions, to increase the degree of artist independence, on the basis of revenue generation from third sources, as well as improvement by 50% in management of the art sector.

The books sector within Culture area has received a special attention. Through reviewing the book's law and consultation forums with interest groups, MoC's policies in this field, compared to an earlier phase, are becoming reader-oriented. Priority has been given to support creators (authors / translators), though publishers have indirectly benefited from these policies.

The National Library is working in the process of digitization, as well as in a more proactive approach to readers, promoting reading habits. Other libraries are in the ongoing strengthening of their educational role, promoting reading to children and young people.

To promote Albanian literature in the European market, the participation and presentation of Albanian writers and translators, in several prestigious international book fairs was funded.

Agreements have been signed with major cultural networks, enabling the circulation of these values in the European area and beyond.

The cultural policy in Albania has to be seen in the framework of the efforts of the Albanian government towards the European integration of Albania. In this framework, the Ministry of Culture is involved in drafting the Cultural Strategy, which is related to its own policy areas such as culture and heritage. The recommendations of the Council of Europe are seen as a priority, especially in the main fields of culture: arts, literature, education and cultural heritage. The Directorate of the Intangible Cultural Heritage aims inter alia to create the necessary institutional and promotional spaces for the development of cultural expressions, enhancement of intercultural dialogue, protection of the cultural rights of minorities and marginalized groups and promotion of linguistic diversity.

Achievements, challenges, solutions and next steps

Describe main results achieved in implementing the Convention:

The Ministry of Culture supports domains of culture including: cultural and arts institutions of creative and performing arts, books domain, cultural heritage, arts education and international cultural co-operation, as well as cultural and linguistic diversity. The cultural policy in Albania has to be seen in the framework of the efforts of the Albanian government towards the European integration of Albania. In this framework, the Ministry of Culture is involved in drafting the Cultural Strategy, which will support the flourishing of cultural expressions.

To achieve the institutional objectives, in accordance with the principles of Article 2 of the Convention, MoC launches annual public open calls for projects-applications from entities, organizations, or cultural associations, in function of improving the creative climate in Albania and strengthening the civil society in the field of culture, supporting artists and writers, especially young and beginning authors, via assistance in publication, attendance at international events, book fairs, etc. In three years, 300 young artists projects have been supported, especially those focused in the development of theater, music festivals, art education, heritage through technology, while at the same time increasing and developing the audiences.

The protection of minority cultural rights and the improvement of the preservation of their identity were supported by several cultural projects, and above all with the Draft Law on Protection of Minorities in the Republic of Albania, art. 10 and 11, expected to pass soon through Parliament. Cultural diversity was encouraged through the celebration of May 21st-Day of Cultural Diversity, "Show Your Culture", and other projects.

As regards to gender equality, many beneficiaries from the MoC funds, were women's associations as: "The Zadrima' Artisans", "The Association of Women with Social Problems", the "Folk Traditions" Foundation (consisting of women and young girls, whose employment contributes to sustainable development.)

Challenges encountered or foreseen to implement the Convention :

While the Ministry of Culture in Albania has begun with the "Education through Culture" initiative to establish an effective, inclusive and sustainable system for arts and cultural education in Albania, involving both formal and non-formal education dimensions, there are still several challenges. In particular with regard to the development of a new strategy for arts and cultural education in an inclusive and cross sectorial manner including all relevant government institutions, as well as in cooperation with cultural institutions and schools. Equally important remains the development of a comprehensive nationwide arts and cultural education curricula for the development of a national platform for arts education.

Other challenges are:

- Informality and piracy in the domains of music, cinema, etc.
- Fund insufficiency on preservation of cultural heritage both tangible and intangible in a digitized environment.
- Lack of appropriate legislation in the fields of art, books, cultural heritage and retirement of artists.
- Low awareness on the Convention and its principles and provisions by culture professionals and civil society.

Solutions found or envisaged to overcome those challenges:

- Increased cooperation with the Ministry of Education and Sport to design more studied curricula, where cultural education is best involved.
- Greater support to artistic creativity and the implementation of Copyright legislation through licensed agencies, against piracy and informality, for the further development of audio visual sector, both in production and distribution.
- Preparing of new laws' drafts in the fields of art, books, cultural heritage and retirement of artists.
- Applying for international funds related to mobility of artists, translations and other cultural projects, as well as preservation of cultural heritage through digitalization.

An increased awareness raising and involvement of civil society, on the visibility of the Convention, through meetings and workshops with culture professionals, (still envisaged)

Steps planned for the next 4 years:

One of the goals for the coming years is the best distribution of the artistic calendar throughout the country, including all ages, but especially the young and marginalized groups.

Also, the support in the field of the book will continue, both in the translation of works of foreign authors and in the translation of Albanian authors abroad. It will support Municipalities to enrich local libraries.

The activity of cultural diplomacy will continue, where for the year 2017 several important activities are scheduled:

- Albanian Pavilion at Venice Biennale, with a total expenditure of 20 million Albanian Leks.
- The "Mediterranea 18" Biennale, with an estimated fund of about 30 million ALL, which will gather in Tirana 230 young artists from the Mediterranean.
- "Tirana In Between" - The Residence's Programme for Writers and Literary Translators in Tirana (a yearly programme)
- Participation at international fairs, as "Leipzig Book Fair" (where The Association of Albanian Publishers regularly participates every year), etc.

Continuing investments in the buildings and facilities with cultural functions, like theaters, museums, cultural centers, etc.
